

Adapters, Couplings & Accessories

Pressures to 152,000 psi

MAXIMATOR designs and manufactures a wide variety of adapters and couplings in an array of styles and sizes. The adapters in this section are considered standard and readily available. Other materials and configurations are available upon request.

Adapters, Couplings & Accessories feature:

- ▶ Adapters & Couplings are 316 cold worked stainless steel material.
- ▶ Traceability is ensured by component laser etching, and through extensive documentation which includes: part number, pressure, material batch numbers, and connection type.
- ▶ Adapters are available in one or two-piece designs.
- ▶ Safety weep holes come standard on all pressure connections.
- ▶ All medium, high and ultra high pressure Adapters and Couplings come complete with glands and collars.
- ▶ Precision stainless steel pressure gauges good for 35,000 psi. Gauges are glycerin filled with laminated safety glass lenses.

MAXPRO offers a complete line of standard high pressure adapters and couplings to compliment our valve line. Special design adapters and materials are available upon request.

Note: When selecting multiple items, the pressure rating would be that of the lowest rated component.

Adapters (male to female)

MAXIMATOR male to female adapters allow the joining of male to female connections. The two connections can be a variety of tube or pipe connection types, with different size combinations possible. All adapters are made of 316 cold worked stainless steel material; other materials are available upon request. Glands and collars are included with each female tube connection.

Instructions

Find the male connection you want on the adapter in the "A" column and the female connection of the adapter in the "B" column. At the intersection of the two columns is the appropriate catalog number.

Pressure Series	Male Connection “A”			Female Connection “B”					
	Tube Size (in.)	Connection Type	Maximum Pressure (psi)*	Female Medium Pressure 22,500 psi

Couplings (female to female)

MAXIMATOR couplings are female to female fittings that allow the joining of two different sizes and/or types of connections for a variety of size combinations. All couplings and adapters are made of 316 cold worked stainless steel material; other materials are available upon request. Glands and collars are included with each female tube connection.

Instructions

Find the first connection you want in the “A” column and the other connection in the “B” column. At the intersection of the two columns is the appropriate catalog number.

Pressure Series	Female Connection “A”			Female Connection “B”					
	Tube Size (in.)	Connection Type	Maximum Pressure (psi)*	Female Medium Pressure 22,500 psi					
				1/4" 4MF	3/8" 6MF	9/16" 9MF	3/4" 12MF	1" 16MF	
Female Medium	1/4	4MF	22,500	21F4M	21F4M6M	21F4M9M	21F4M12M	21F4M16M

Stainless Steel Pressure Gauges

MAXIMATOR® US
MAXPRO Technologies
www.maxprotech.com

Materials and Features

- ▶ Accuracy: 0 - 10,000 PSI $\pm .5\%$
15,000 & 20,000 PSI $\pm .1\%$
30,000 & 35,000 PSI $\pm 1.5\%$
- ▶ All gauges are panel mount style.
- ▶ AISI 316 Stainless Steel Case.
- ▶ 316 Stainless Steel wetted parts.
- ▶ Laminated safety glass lens.
- ▶ Gauges come standard with Blow-out relief grommet.
- ▶ Gauges are glycerin filled when shipped.

Options

Other gauge faces are available for different pressure units. These gauges can also be cleaned for oxygen service. See chart below for catalog number suffixes.

Option	Suffix
PSI / BAR Gauge Face	-B
PSI / KPA Gauge Face	-K
Gauge Cleaned for Oxygen Service	-O

Gauge Dimensions (in.)
